ENVIRONMENTAL POLICY

Titan Drilling Operations Ltd is an active participant to the promotion and preservation of environmental quality in all activities. Not only is this achieved through adherence to official regulatory policies but by in a wider frame of participation and co-operation with environmental conservationists and in practical terms with specific reference to:

- Preservation of flora and fauna around the drill program site of works
- Protection of material, plant and equipment for avoidance of dust and fumes, both in storage and operational use
- Control of and management of potential pollution to marine and water
- Appropriate purchasing, transportation and disposal of oils and lubricants
- Driving vehicles on pre-constructed roads and in a method which will minimise impact on the area
- Every effort will be made to lessen the impact of our operations on the environment, and to educate our employees on the reasons for such a policy

Titan Drilling is proud of its commitment to the protection of the environment and continuously strives to ensure that our measures accommodate the different areas of where our operations are situated.

Mike Coulson
